

PRESS RELEASE

Harvest Time, A Garden-to-the-Table Experience at Resort's Permaculture

Bali, September 2023

We are thrilled to unveil our latest endeavor, the Permaculture. This hydroponic mini garden concept is a testament to our commitment to sustainability and environmental responsibility. Beyond its role as a natural supplier in providing fresh products, it also transforms you into an immersive journey to the world of diverse plantations.

Set in an idyllic setting and nestled amidst the resort's lush landscape, this backyard offers a unique connection with nature, allowing guests to immerse themselves in unparalleled experiences in an indulging yet serene ambiance. It boasts a charming amusement park section, where guests can find cozy chairs perfect for relaxation. Spacious swings that accommodate two persons are available, allowing them to sway away, embracing nature's ambiance.

"We are overjoyed by the success of our first harvest last Tuesday, 29th August 2023, particularly of 27,05kg of Bok choy and jackfruits," stated our General Manager, Pierrick Gautier.

Our Chefs and Kitchen Teams revel in the opportunity to handpick fresh vegetables and fruits for their culinary creations. By holding a culinary ethos "garden to the table", these ingredients will be utilized in crafting local delicacies to be served at our employee's restaurant, Puri Boga.

In-house guests are welcomed to witness every stage of the planting and harvesting process. This hands-on experience provides an intimate connection with universe and as an education of sustainable farming practices.
